POST-CONSUMER Recycled Polyester

Renew is a 100% recycled polyester yarn, the recycling process is ecologically sustainable since it is obtained from recovered plastic bottles.

Renew's production is environmentally friendly by using a highly efficient recycling process that significantly reduces the consumption of CO2, energy and water.

Renew is certified by OEKO-TEX STD 100 CLASS I and GRS, to meet the needs of companies seeking to verify the recycled content of their products by a third party and to verify responsible social, environmental and chemical practices in their production.
